

INSIGHT

STAFF WORK STATION

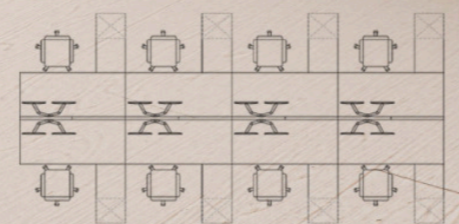

About Staff Work Station

Insight encourages a social, collaborative work environment suitable for modern workplace. Storages, power, data and voice access are all within reach in this open-concept system which

ensures effective communication among teammates. With its smart wiring solution organizing your equipment is easy and working has never been this cordial.

MANAGER WORK STATION

Workplaces have evolved because it's leaders are open for changes. Modern offices have open interiors where the lines of hierarchy become less and less visible. Bosses communicate more often with their subordinates and staff consult more from their supervisors.

INSIGHT is a desking system which provides you a better and comfortable workplace especially designed for your hectic lifestyle. It's clean and crisp design will apparently help you to minimize the clutter in your working life.

CONFERENCE TABLES

Spaces for meetings and conferences are places of modern productivity. A functional portfolio of furniture is needed to furnish these communicative areas. This can range from multi-part conference tables, to meeting tables and integrated media technology.

Accessories

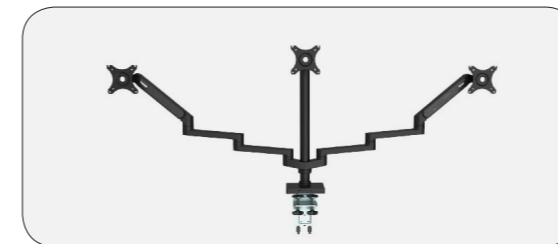

360° CPU Holder

Single Monitor Arm

STAFF WORK STATION

Storage, Durable
Pull-out filing cabinet
also serves as privacy
dividers on exposed aisle
workstations.

Wire Trunking Box Center leg with
side covers to conceal power cables
trunking vertically to the desks.

Maximize Your Furniture Mobile
pedestal with seating pad can
solve both storage & guest
seating problems.

Privacy Screens 5mm thick tempered
glass screens, with option of frosted
or clear finish to create a seemingly
boundless workspace. All screens
are made with environment friendly
materials.

“Three key qualities for a workstation: functional, flexible and recyclable. A modular furnishing system which responds to the requirements of contemporary work. Quality space designed from a perspective of intelligent work”.

A multifunctional table system is suitable for all kinds of work. Flexible and modular in design, Insight Workbench promotes communication and interaction. It is open to change and easily adaptable to today's office requirements. A contemporary and exclusive design, it is extremely stable and easy to assemble.
