Staff workstation

Insight encourages a social, collaborative work environment suitable for modern workplace. Storages, power, data and voice access are all within reach in this open-concept system which ensures effective communication among teammates. With its smart wiring solution organizing your equipment is easy and working has never been this cordial.

Manager workstation

Clean and minimal design

Insight is a desking system which provides you a better and comfortable workplace especially designed for your hectic lifestyle. Its clean and crisp design will help you to minimize the clutter in your working life.

Conference tables

Spaces for meetings and conferences are places of modern productivity. A functional portfolio of furniture is needed to furnish these communicative areas. This can range from multi-part conference tables, to meeting tables and integrated media technology.

Bright, open workspaces

Workplaces have evolved because it's leaders are open for changes. Modern offices have open interiors where the lines of hierarchy become less and less visible. Bosses communicate more often with their subordinates and staff consult more with their supervisors.

Triple Monitor Arms

Laptop & Monitor Arms

360° CPU Holder

Single Monitor Arm

**CLIENT
FEATURE**

CLIENT FEATURE:

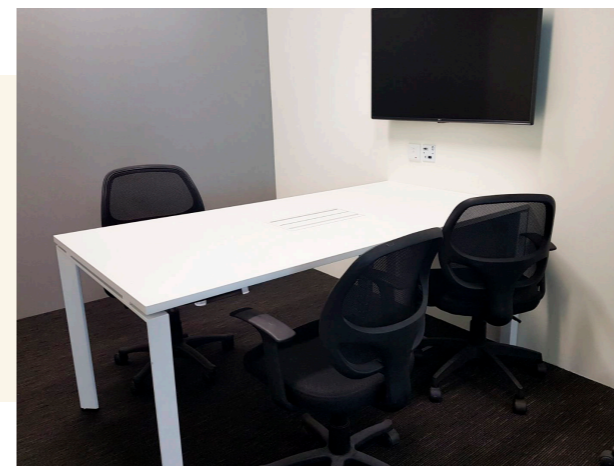

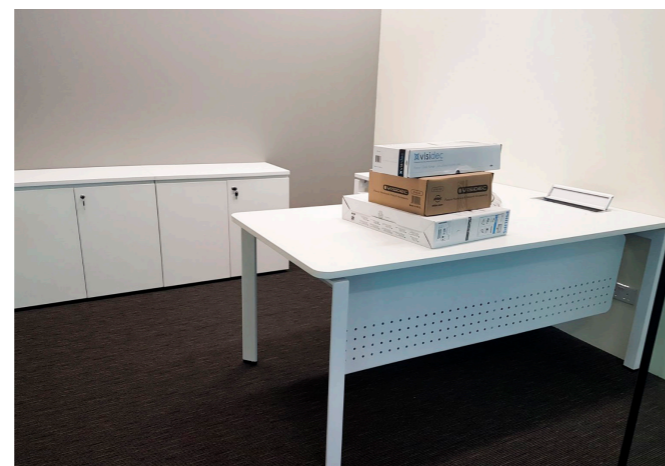

AGC

The Attorney-General's Chambers ("AGC") plays a pivotal role in Singapore's criminal justice system, and also serves as the "Government's law firm" by providing legal advice, representing the State in domestic and international disputes and drafting our laws. The project is located at North Bridge Road. As the client is dealing with legal stuff and needed more privacy for all workstations, we provided system partition panels for individual and with height adjustable leg to have more flexibility.

CLIENT FEATURE:

ACCA

Association of Chartered Certified Accountants (ACCA) is the global professional accounting body offering the Chartered Certified Accountant qualification (ACCA). The office design solution was successful largely because it helped the client transition and convince current employees to move to a more collaborative work style while at the same time upgrading the office environment to align with its evolving business direction and making their employees feel more at home.

CLIENT FEATURE:

Keppel Enterprise

Keppel Enterprise is a Singaporean conglomerate headquartered at Keppel Bay Tower, HarbourFront. The company consists of several affiliated businesses that specialises in offshore & marine, property, infrastructure and asset management businesses. They wanted the design of their furniture to incorporate their new brand standards and to use the space to enhance the experience for their customers and employees.

CLIENT FEATURE:

Schneider Electric

Schneider Electric decided to relocate 4 main offices in Singapore and put them under the same building located at 50 Kallang Avenue. At least 10 different type of work space is providing to the staff base on their daily activities. Traditional work desk or table ledge is provided for those who just need to sit down and focus on their work. Selectively, some of the workstation is height adjustable, which allow for those who prefer to stand and work.

CLIENT FEATURE:

Schneider Electric

Collaborate and brainstorm for group discussion on project basis. Round discussion corners allow employees for short meetings or quick regroup sessions. Minimalist and Scandinavian style are designed across all the office in the building, create a cosy and smoothing working environment for everyone.

CLIENT FEATURE:

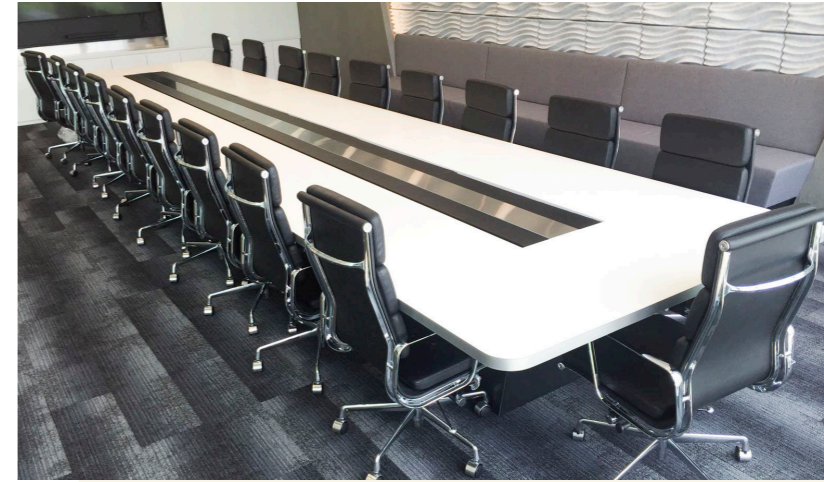

Air Bus

AirBus is one of the biggest aircraft company in Singapore located at Seletar Aerospace Crescent. We provided complete office solutions for the company, including open concept for office area and system partition panels for Head of department.

CLIENT FEATURE:

Ocean Network Express

ONE (Ocean Network Express Pte Ltd) is a major new global container shipping company. We have helped them to create a bright and active working environment in their workspaces. Meeting room colours were carefully planned throughout the entire office having a Singapore theme inculcated in each room. With everything kept neat and formal, placing emphasis on bright vibrant colours, it makes the space uniquely interesting and practical for the office space.

CLIENT FEATURE:

SOTA

The School of the Arts (SOTA) is Singapore's first national pre-tertiary specialised arts school with a six-year integrated arts and academic curriculum, leading to the International Baccalaureate (IB) Diploma or Career-related Programme, for youths aged 13-18 years old. The main concept is to create a new office which is colourful, vibrant and expressive resembling SOTA youthful identity.

CLIENT FEATURE:

EHI

Environmental Health Institute (EHI) is a public health laboratory run by NEA which conducts research, surveillance, and risk assessment to acquire knowledge on environmental issues affecting public health. We created privacy workplace and integrated various full storage solution. A post-occupancy surveys showed that 93% of the employees perceive higher productivity at their new facility.

OVERVIEW ABOUT GENISYS

We are building for the future.

Satisfying our client's expectation is the main focus in our business strategy, through many years of working experience and adopting customer focused business approach we face many problems encountered by our client and by solving them through this years we are also improving.
