

LOUIS

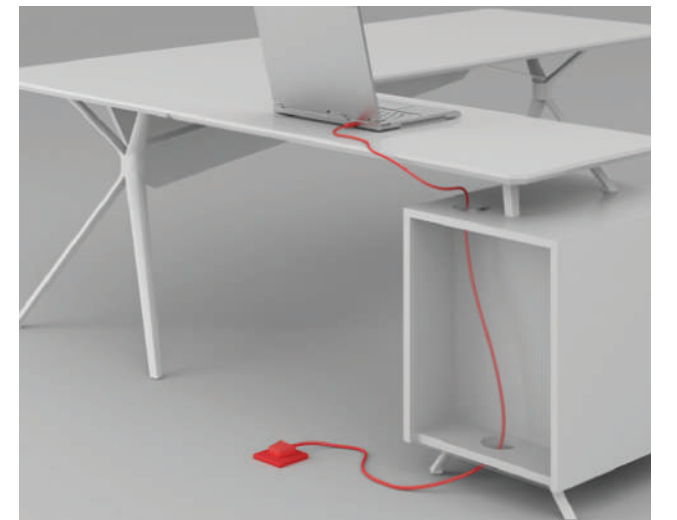

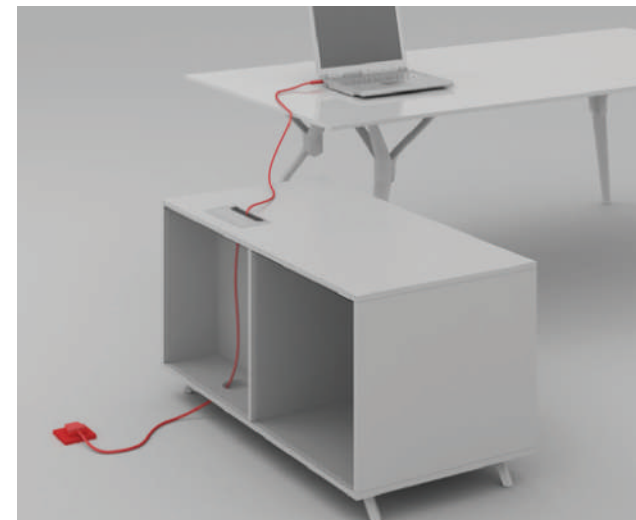

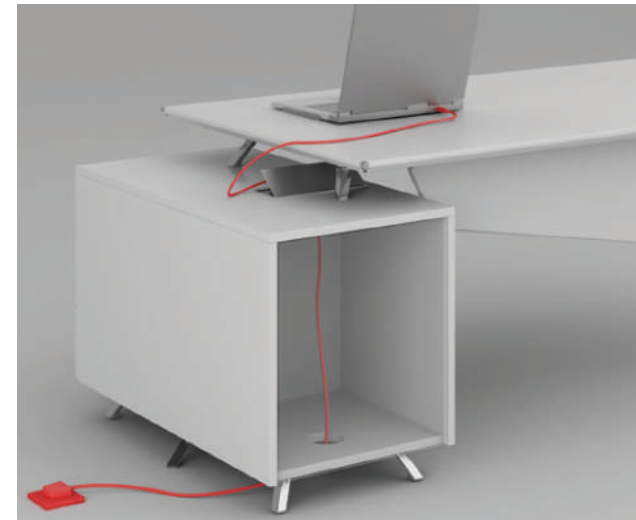

Executive Workstations

All the three versions of top can be combined with a multilayer modesty panel available in a variety of finishes.

Legs and surfaces can also feature a stitched leather trim, giving the pieces a more elegant and sophisticated appearance.

A new approach for executives that exude style and innovation. Designed with principles of minimalism and contrast, the simple lines created by the geometric table shape blends well with the unique shape of the legs. This gives the contrast between less and more.

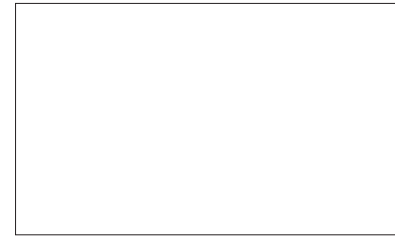

For contemporary offices with modern concepts, Louis offers modular units that allow flexibility in space planning, from table shapes, cabinets, storages to meeting tables.
